

It better be clear

Because there's a lot of pressure on you to get the diagnosis right. The new IDEXX EliteVision™ Digital Imaging System with advanced cesium technology captures crisp, clear radiographic images fast. So you get the shots you need to make an accurate diagnosis with fewer retakes. Compact, portable and wireless, the IDEXX EliteVision system goes where you go, and its long-life battery will keep on working for as long as you do.

Seeing is believing. Request a free demo at idexx.com/elitevision, or call 1-855-627-6573.

IDEXX EliteVision™ Digital Imaging System

Advanced technology: less is more

- Capture quality images with low-dose efficiency.
- Quicker capture reduces risk of patient movement and the need for repeat examinations.
- Shorten exposure time for patients and technicians.

Technical specifications:

Detecting area: 9.59" × 11.69" (24.35 cm × 29.70 cm)

Imaging plate dimensions:

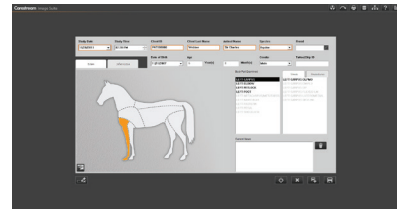

Height: 16.3" (415 mm) Width: 11.2" (284 mm) Depth: .6" (16 mm)

System weight: less than 35 lb

Operating/Storage temperature: 59°F–86°F (15°C–30°C)

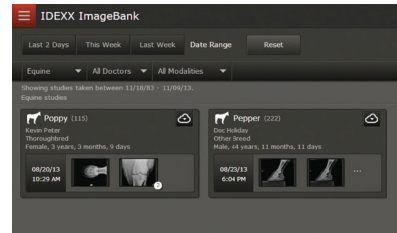

Equine-Specific Capture Software

- Customizable procedures and patient screens provide an equine-specific work flow with Image Suite™ software.
- Take advantage of an equine-specific shot tree.
- DICOM®-conformant software meets the American College of Veterinary Radiology (ACVR) imaging guidelines.

IDEXX ImageBank™ Storage System

- Easily access your images for real-time sharing on multiple computers or from your mobile tablet.
- Your images are automatically backed up and secure.
- Unlimited cloud storage.

IDEXX-PACS™ Imaging Software

- Stay current with leading-edge, continually updated software.
- Advanced manipulation tools facilitate quicker diagnoses.
- IDEXX-PACS software integrates with Image Suite™ software and the IDEXX ImageBank system to create a streamlined work flow.
