

IDEXX Reference Laboratories

Diagnostic Support Veterinarians

Bernadette Bylina, MS, DVM

Diagnostic Support Veterinarian

Area(s) of interest: diagnostic medicine

Dr. Bylina received her veterinary degree from the University of Illinois in 1985. She spent seven years in clinical practice in Illinois and Colorado before serving in the US Air Force as a Public Health Veterinarian. She then completed a residency in anatomic pathology at Colorado State University. Dr. Bylina spent ten years working in the veterinary diagnostics industry as part of a medical consultation team, followed by a year serving as an assistant professor of microanatomy and embryology at Ross University School of Veterinary Medicine, and then returned to Colorado to act as staff veterinarian and study director for a local contract research organization. Dr. Bylina joined IDEXX as a consultant in 2014.

Jennifer Lehr, DVM

Diagnostic Support Veterinarian

Area(s) of interest: diagnostic medicine

Dr. Lehr received her veterinary degree from Kansas State University in 2006. She spent six years in clinical practice at a mixed animal veterinary practice in Maine followed by three years at a university veterinary diagnostic laboratory. She joined IDEXX as a consultant in 2015.

Lois St. Pierre, DVM

Diagnostic Support Veterinarian

Area(s) of interest: diagnostic medicine

Dr. St. Pierre received her veterinary degree from Purdue University in 1998. She spent several years in clinical practice in several states including Illinois, Massachusetts and Maine. Dr. St. Pierre joined IDEXX as a consultant in 2014.
